

Dental

Dental needs are often postponed and are likely to be neglected by those pressured by other necessities. **Self-reliance in dental health starts with preventing the problems. When opportune, basic prevention is the best course of action.**

In Utah, dental care is a covered service for eligible Medicaid members who are pregnant, disabled, blind, age 65 or older, and children ages birth through 20 who qualify for Medicaid and certain others. Medicaid members enrolled in the emergency services program for non-citizens are not eligible for dental benefits, except for emergency dental services. **Please check to see if you are serving qualify for these benefits.**

April 1, 2025 - Medicaid Dental Expansion to Cover all Adult Medicaid Members

Effective April 1, 2025, Utah's Medicaid program has been expanded to provide dental benefits to all adult Medicaid members aged 21 and over, who are currently excluded from receiving dental benefits. These adult members eligible for dental services will be required to receive services through the University of Utah School of Dentistry or its associated statewide provider network. **This is not just limited to U of U Dental School**

Dentists. Click this link to find the statewide network provider list organized by county.

Donated Dental Services

Donated Dental Services provides quality, comprehensive dental care to low-income and homeless individuals.

Davis County

550 East 300 South
Kaysville, UT 84037

Our dental professionals provide patients with treatment options comparable to what they would expect from a private office. Donated and discounted services are available depending upon family size and income. Printed proof of income eligibility such as most recent pay stubs or Social Security statement is required prior to scheduling.

These services include:

- Oral surgery services
- Preventative and periodontal maintenance
- Restorative care (fillings, crowns and bridges)
- Extensive denture and partial program
- Pediatric care including sedation

University of Utah School of Dentistry

You can go on the [University of Utah School of Dentistry](https://dentistry.utah.edu/) website, and it will give you a number. You can call 801-58-SMILE, and that will connect you to their operators. You can explain your situation, what you're looking for, and they can get you connected to the right clinics or associated providers in your area.

School of Dentistry Services

We offer a full range of dental services for patients of all ages, including adults, children, teens, and the elderly. To better serve you and your whole family, we have multiple locations across the state of Utah. If you don't have dental insurance or are paying out-of-pocket, you can get dental care at a discounted fee from our dental students and residents who are supervised by licensed dentists.

We also care for patients with special needs like autism and developmental disabilities.

Oral Health Assistant Application
